The Brantford Stove Works,

BRANTFORD, ONT.

IN issuing this **ILLUSTRATED CATALOGUE** of our Iron Stable Fittings Department, we have used every endeavour to make it a **STANDARD REFERENCE BOOK** for the **ARCHITECT, BUILDER, FARMER** and **HORSEMAN**.

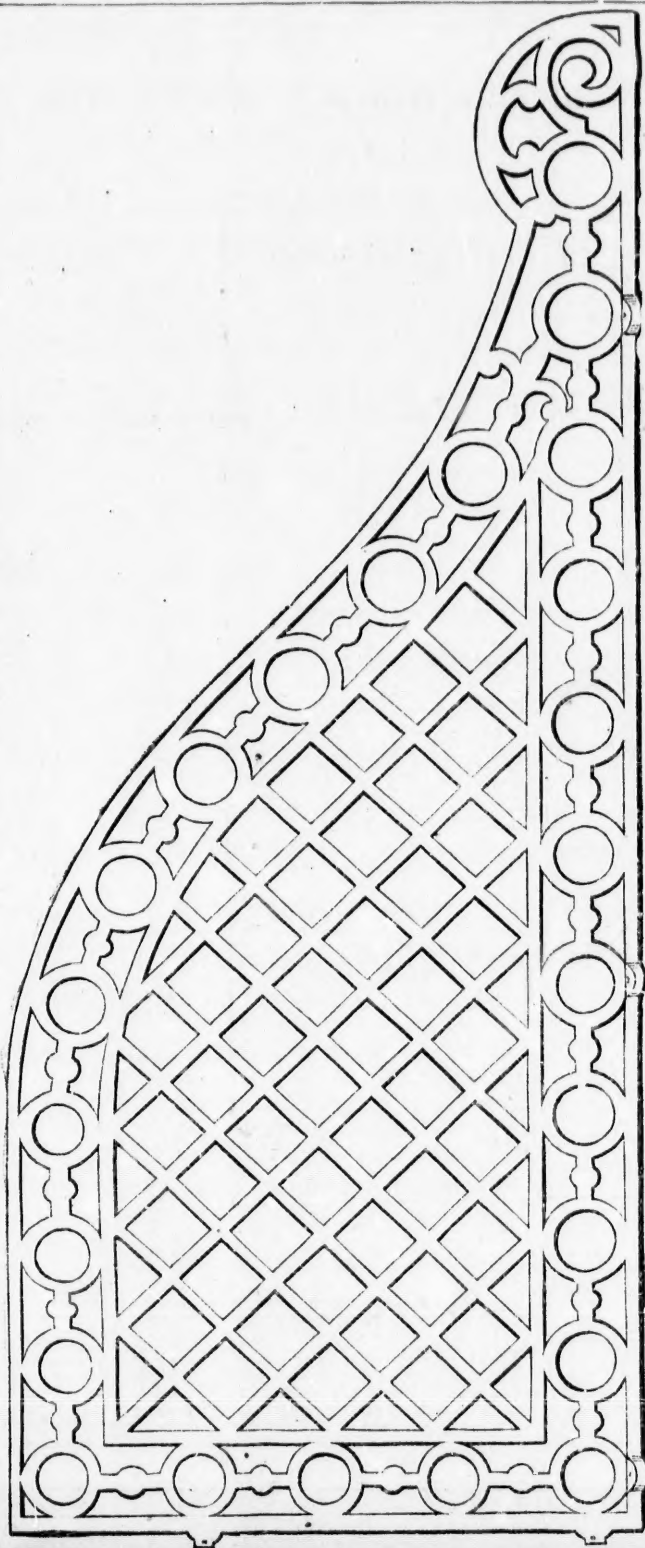

The healthfulness, economy, and superiority of Iron Stable Fittings is a fact already established, and having considerable personal experience, and aided by the suggestions of Gentlemen conversant with stable furniture requirements, we are able to present you with a Catalogue of the Iron Stable Fittings we manufacture, which are unexcelled, they having gained the desirable reputation of being thoroughly **practical, durable and ornamental**. These Castings are made of the **best material** and by choice workmen, are drilled, counter-sunk, painted, and ready to screw into position. Experienced persons sent to give practical information and receive instructions and orders; also to superintend the erection of the fittings if thought necessary.

LIBERAL DISCOUNTS ALLOWED TO THE HARDWARE TRADE,
OR FOR LARGE ORDERS.

Your orders solicited for these desirable goods.

Yours, etc.,

B. G. TISDALE.

**FIGURE 1.****OPEN STALL PARTITION GUARD.**

5 feet 10 inches long; 2 feet 4 inches wide.

Has lugs at front end and at bottom, drilled to screw through Wall Strip and Cap Rail. Is a large, strong heavy casting.

Price painted, \$5.00.

THE ABOVE BRONZED TO ORDER.

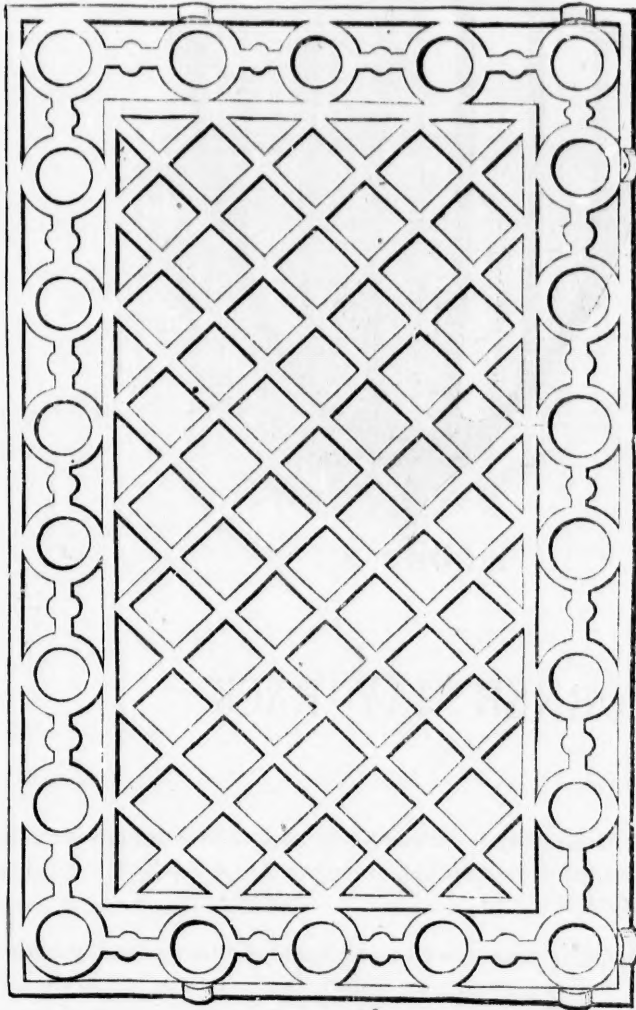

FIGURE 2.

BOX STALL PARTITION GUARD,

ALSO USED AT THE HEAD OF OPEN STALLS. Can be made any length desired.
3 feet 4 inches long ; 2 feet 4 inches wide.

Price painted \$4.00.

THE ABOVE BRONZED TO ORDER.

THE ABOVE BRONZED TO ORDER.

Price painted, \$5.00.

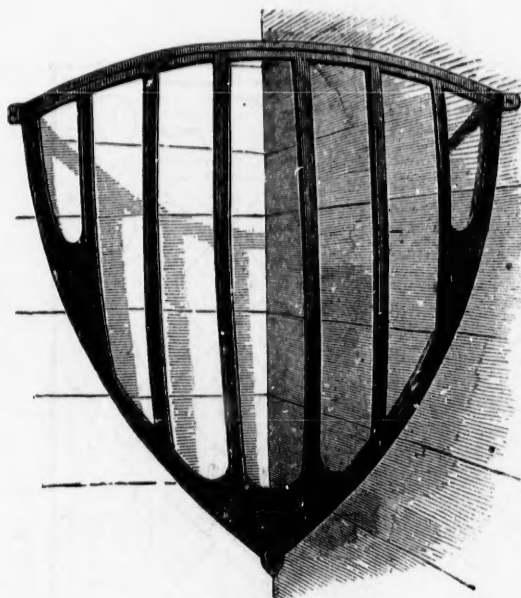

FIGURE 3.

CORNER HAY RACK.

This Rack holds sufficient hay for any ordinary horse, but if desired it can be made larger by using narrow wainscotting from the top of Rack to the ceiling it then forms a Drop Rack.

We suggest placing one of these Racks on each side of alternate stall partition Guards, this forms a half circle and causes only one hole to be cut in the loft floor to supply the two Racks. No waste of hay or dust from this style of Rack.

Price painted \$2.50.

THE ABOVE GALVANIZED OR BRONZED TO ORDER.

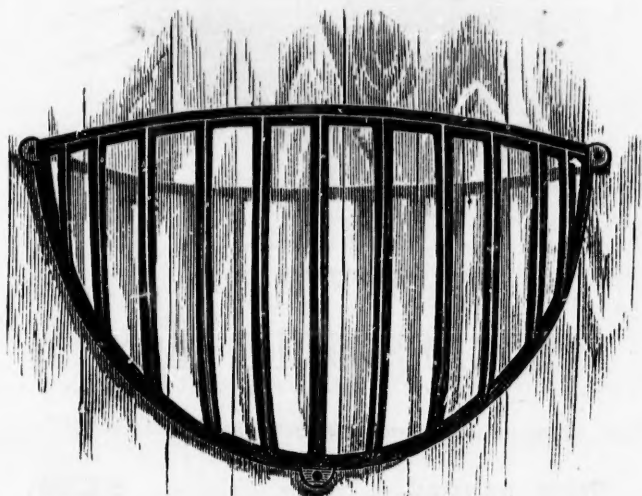

FIGURE 4.

HALF CIRCLE HAY RACK.

The above is a very large Rack, and is made to supply our patrons who desire to feed a large quantity of hay at once ; it can be made still larger.
(See under *Figure 3.*)

Price painted \$3.50.

THE ABOVE GALVANIZED OR BRONZED TO ORDER.

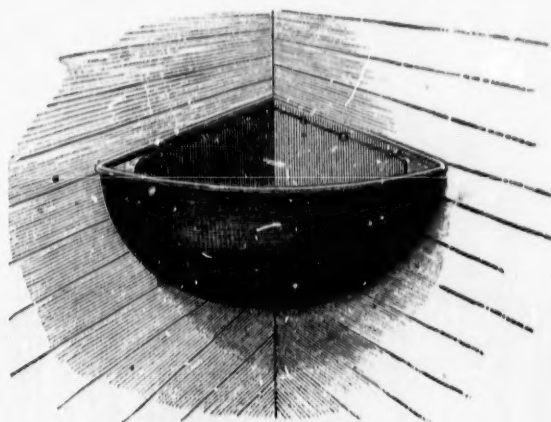

FIGURE 5.

CORNER FEED BOX.

Size 17 inches from corner to outside edge, 12 inches deep.

Price painted, - - - \$3.00.
 " " with Foot Guard, 3.25.

FIGURE 6.

Size 22 inches long ; 15½ wide ; 9½ deep.

OBLONG FEED BOX.

The above Cut does not show this desirable Feed Box to advantage. It is a large roomy Box with round corners, thus preventing any collection of sour food. This Box can be placed in a corner same as Figure 5.

Price painted, - - - \$3.25.
 " " with Foot Guard, 3.75.

THE ABOVE FEED BOXES GALVANIZED OR ENAMELLED TO ORDER.

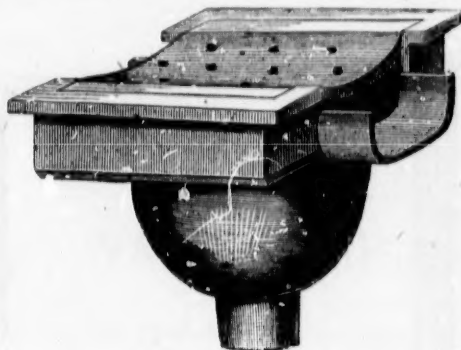

FIGURE 7.

HEAVY STABLE CESS POOL

With Bell Trap made especially to fit Stable Gutter.

Price painted, \$6.00.

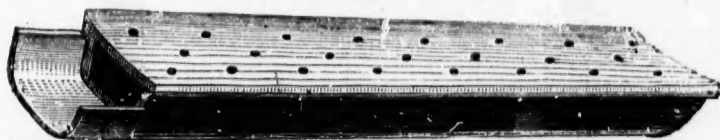

FIGURE 8.

HEAVY STABLE GUTTER & COVER

In lengths of 3 feet ; 7 inches wide : Gutter 2 inches deep.

Price painted, Cutter and Cover per length, \$4.75.

“ “ **Cutter only, “ “ 2.00.**

“ “ **Cover “ “ 2.75.**

The above are very heavy castings, and without doubt is *the best* system of Stable drainage.

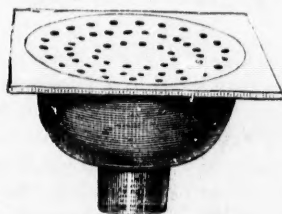

FIGURE 9.

CESSPOOL,

With Bell Trap for Stalls, Yards, Wash-Racks, &c.

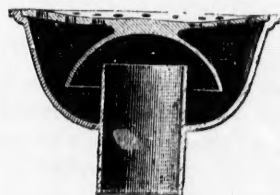

FIGURE 10.

SECTIONAL CUT,

Showing Bell Trap.

Price painted, \$3.75.

FIGURE 11.

STALL POST. · RUSTIC TIE POST.

5 feet 9 inches high, by 6 inch diameter;
grooved 5 feet 2 inches to receive
2 inch plank; with flanged
bottom to bolt to floor.

This Post has solid Brackets on the inside for
Plate to rest on, to which a Heavy Rod
set in Masonry, or from a Bar under
the joist, connects.

Price painted, - - - \$6.00.

Stall Post Rod and Plates, - 75.

FIGURE 12.

Out of ground 40 inches high. Bal-
ance 30 inches in the ground with
large flange to prevent being
"heaved" by frost.

This Tie Post should be in front of every per-
sons residence who can afford to buy it.

The Post is very durable and more
than ordinarily ornamental, being
painted a rich green, with the
face of projections bronzed.

Price painted as above, - \$5.00.

FIGURE 13.

WALL STRIP.

7 feet 9 inches long, grooved 5 feet to receive 2 inch plank.

Price painted, \$2.25.

In ordering Wall Strips state whether you want Feed Box on right or left side of stall, or if you desire a Feed Box on each side of the partition.

FIGURE 14.

CAP RAIL.

Drilled for Open or Box Stall Guards to screw through. Grooved to receive 2 inch plank.

ALSO USED FOR FLOOR SILL.

MADE ANY LENGTH DESIRED.

Price painted, 9 feet long, \$3.00.

By using the Stall Post, Cap Rail, Floor Sill and Wall Strip, the stall partition plank are **IRON BOUND**, so that no horse can kick through or injure the partition,—there is economy in this.

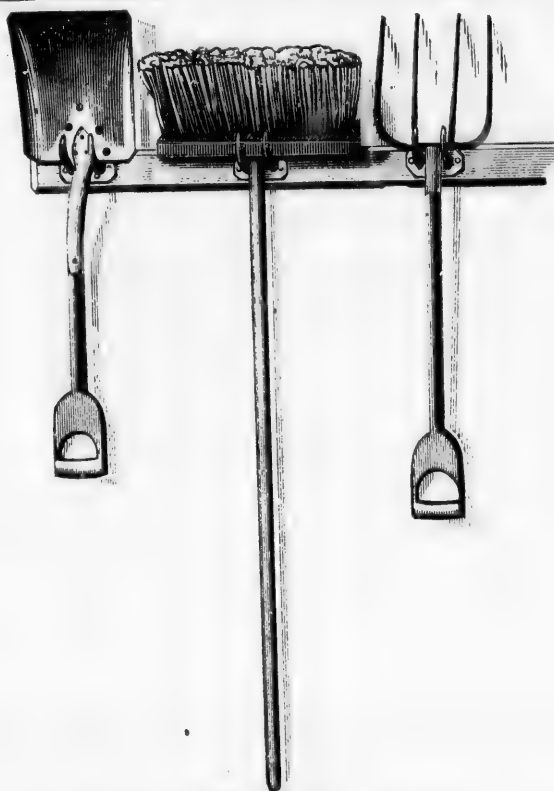

FIGURE 15.

IMPLEMENT HOOKS.

Very useful article in a Stable.

Price Japanned, each, - . - - \$0.50.

FIGURE 16.

BLANKET BRACKET,

Wood Roller any length desired.

Price Japanned, per pair, - - - \$1.50.

THE ABOVE GALVANIZED OR BRONZED TO ORDER.

FIGURE 17.

SADDLE AND BRIDLE BRACKET.

Price Japanned, \$1.50.

FIGURE 18.

BRACKET,

For oiling or washing Harness.

Price Japanned, - - - \$0.75.

FIGURE 19.

HARNESS HOOK,

Price Jap'd, small, per doz. \$2.00.
" " large, each, - 0.75.

The above cut does not properly shew our New Harness Hook. The connection with plate is solid, making the new Hook very strong.

THE ABOVE GALVANIZED OR BRONZED TO ORDER.

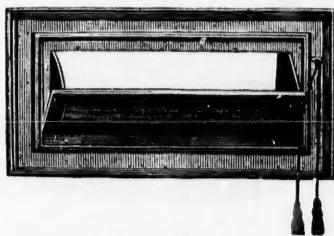

FIGURE 20.

VENTILATOR.

For the introduction of fresh air through an extended wall without draft.

Price Japanned, - \$1.25.

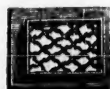

FIGURE 21.

Ventilator Guard.

Price Japanned, - \$0.50.

FIGURE 22.

CARRIAGE POLE BRACKETS.

Price Japanned, per pair, Four Hook, \$2.00.

“ “ “ **Three Hook, 1.75.**

“ “ “ **Two Hook, 1.50.**

FIGURE 23.

FIGURE 24.

TIE RINGS.

Price Japanned \$0.75.

Price Japanned \$0.60.

We make the Lion Head Tie Ring figure 23, in a Circular Plate, so that it can be attached to the front of Stall Post, figure 11.

THE ABOVE GALVANIZED OR BRONZED TO ORDER.
